Chest interiors may be arranged in any
modular or custom configuration.

HAMILTON

Manufacturers of the latest in drive-up systems, modular vaults, vault doors, night depositories, physical security containers, alarm systems, rolled-coin dispensers and video surveillance equipment.

Hamilton's 80UC Night Depository with the new TR/TL 30 chest

Exclusive "Guillotine" closure device adds security to new and retrofit night depositories

Night depository path is clear and open as long as depository face is in place.

If depository head is removed, closure device snaps shut instantly to deny access to chest and its contents.
