

Security Solutions FOR FINANCIAL INSTITUTIONS

BranchServ provides a single point-of-contact for all of your physical and electronic security needs by leveraging a comprehensive network of suppliers, benchmarking with the most advanced technologies, and ensuring complete integration. We deliver solutions that are custom configured to each project, and our installations carry a best-in-industry guarantee. But it doesn't end there. **BranchServ** pioneered the concept of customized site service, and our stellar response times and completion rates support our leadership in client satisfaction.

True integration of ALL physical and electronic security equipment is essential to the total success of your security program. Begin by ensuring that electronic security elements including video surveillance, intrusion alarm and access control are tied together to optimize protection.

ASSET PROTECTION To ensure secure containment of cash and other valuables.

BranchServ offers lockers, safes, vaults and safe deposit boxes as part of our Asset Protection Program. These components work together to guard against both internal theft and robbery.

■ **Lockers** Heavy-gauge modular cabinets and lockers are custom configured to complement the facility aesthetic without compromising security and functionality.

■ **Modular Vaults** Technologically advanced and fully customized modular vault systems are UL rated and compliant with the security requirements mandated by various industries.

■ **Safes** High-security standard and custom-sized safes with TL-15, TL-30 or TR/TL 30x6 ratings, available in steel plate or composite.

■ **Safe Deposit Boxes** Well-made, high-security safe deposit boxes that optimize available space.

Brands Include:

BRANCH TRANSACTION SECURITY To ensure that all customer transactions are secure.

■ **BranchFormation** with cash recyclers, ATMs and New Branch Solutions will engage your customers via technological innovation and optimal convenience. This cash automation initiative also supports cost reduction at the teller line and a focus on higher margin financial products to improve the bottom line.

■ **Undercounter Steel** Modular cabinets and pedestals complement the facility aesthetic without compromising security and functionality.

■ **After Hours Depositories** Optimal deposit protection without sacrificing user friendliness - maximizes convenience for customers. Customized to accommodate site requirements.

■ **ATM and Lobby Security** The BranchServ ASD (Anti-Skimming Device) is a revolutionary and

cost-effective solution to prevent skimming at ATM vestibule point-of-entry card readers. The ATMScreamer is an innovative response to ATM theft and vandalism. And bullet resistant products, including portals, ensure customer and employee safety.

Brands Include:

DRIVE-UP SECURITY To ensure that customers have an optimal banking experience, even when on the run.

BranchServ offers a comprehensive suite of Drive-up Components including audio/video, bullet-resistant glass, deal/transaction drawers and pneumatic systems. All work in tandem to create a safe and efficient drive-up system.

Brands Include:

VIDEO SURVEILLANCE To facilitate early detection of potential dangers and rapid intervention to minimize damage.

BranchServ offers video surveillance equipment including cameras, NVRs and DVRS that provide benefits like:

- Theft prevention
- Heightened Levels of Employee/ Customer Safety
- Internal Dispute Resolution
- Improved Employee Productivity
- Visual Evidence
- Remote Capabilities

BranchServ utilizes open architecture to enhance any video network, leveraging your current equipment and complementing it with improvements to make your video surveillance work harder for you. We analyze your infrastructure and develop a hybrid solution that will support system wide broadcast and browser access. Configuration is customized to meet the needs of your facility with an eye to ROI, security/IT convergence, long-term storage limitations and band-width demands. Remote viewing and searching is facilitated and export ability is supported.

Brands Include:

exacqVision

3VR VIDEO INTELLIGENCE PLATFORM™

INTRUSION ALARM SYSTEMS To summon response and intervention: the very heart of after-hours security.

BranchServ offers fully customized intrusion alarm systems to meet your specific needs, with consideration for:

- Cost Management
- Industry Regulations
- Interdepartmental Issues
- Reliability

The company's equipment offerings are complemented by the availability of external monitoring service via a

central station. This ensures that alarms are filtered for false activations and emergencies are responded to with expedience.

Brands Include:

ACCESS CONTROL To monitor and restrict access to your facilities and areas within.

BranchServ customizes access control solutions that provide a number of benefits including:

- Threat Deterrence
- Cost Management
- Convenience
- Flexibility
- Reduced Liability
- Customized restrictions
- Automation systems that can lock/unlock doors or gates at specified intervals
- An audit trail that provides a time and date stamped record of every opening or attempted opening
- Remote access capabilities

Brands Include:
