

Put Your Best Branch Forward

BranchServ Security and Automation Equipment/Service
for Your Financial Institution.

 **BranchServ**
Setting a higher standard

BranchServ Can Take Your Branch to the Next Level

Our security and automation solutions work inside and out to generate optimal results for your financial institution. And we complement our products with industry leading service metrics to ensure that you can indeed Put Your Best Branch Forward. We at BranchServ are a total resource for banks and credit unions. We deliver solutions that include:

Physical Security Solutions

Asset Protection

BranchServ ensures secure containment of your cash and customer valuables via:

- Vaults: UL Class M, 1, 2 or 3
- Plate and Composite Safes: TL-15, TL-30, or TR/TL 30x6
- Modular Lockers Heavy Gauge
- Safe Deposit Boxes

Drive-Ups

BranchServ supports the customer experience in your drive-up lanes via:

- Pneumatic Tube Systems
- Deal Drawers
- Bullet Resistant Glass and Armor Products UL 752 1-7
- Audio/Video Communications

Lobby & Exterior Security

BranchServ protects your cash, customers and employees from the outside-in via:

- After Hours Depositories
- Safepak Self-Locking Bags for Night Drops
- Secure Entry Portals with Metal Detection

Electronic Security Solutions

Access Control

BranchServ restricts access to and within your financial institution via state-of-the-art solutions that support customized controls, real time adjustments, remote viewing and an audit trail.

Alarm

BranchServ helps you deter potential threats and respond to real ones via customized intrusion alarm systems that integrate with video for false-alarm detection and evidence gathering.

Vendor Access Management

BranchServ helps you reduce the burden of vendor meets via an intuitive vendor access management system from SupraTRACcess.

Video Surveillance

BranchServ implements video as a key line of defense for your institution with integrated, open-architecture solutions. Systems include:

- Video Management Software & Hardware
- Surveillance Cameras
- Encoders/Switches

Automation & Branch Transformation Solutions

Advanced Automation

BranchServ helps your branch break through competitive clutter, improve efficiencies and optimize customer relationships with next-generation assisted self-service technology from Nautilus Hyosung. This includes:

- The MX8800 In-Lobby Unit
- The MX7800 Drive-Up Unit
- The MX8200QT Compact Unit

ATMs

BranchServ ensures an optimal self-service experience for your customers via high-performing, compliant and secure ATMs. These include the following Windows 10 enabled units:

- Nautilus Hyosung 5600
- Nautilus Hyosung 7600

And the Nautilus Hyosung 7800 is available as a hybrid solution that allows you to future-proof your ATMs with technology that can incrementally transition to advanced functionality and incorporate cash recycling, tablet compatibility and video.

Cash Recycling

BranchServ harnesses the power of innovation to increase your efficiency, security, and cost management at the branch level with the groundbreaking LTA-350 Cash Recycler from CV Cash Automation.

Professional Services

BranchServ Professional Services partners with banks and credit unions nationwide to support branch optimization, transformation and design. Leveraging our base of experience, expertise and vast vendor network, BranchServ serves as your trusted advisor to provide:

- Strategic development and implementation
- Business case and ROI modeling
- Process management
- 3rd party integration
- Ongoing technical support
- And more

Maintenance and Repair Service Programs

TotalServSM

Our premier TotalServSM program reduces branch equipment costs, improves service levels and allows for better forecasting. This all-inclusive service contract covers equipment planning, maintenance and service for a single annual contract fee.

BranchPMSM

Structured preventative maintenance reduces equipment downtime. As a component of the TotalServSM program or as a stand-alone option, our BranchPMSM program leverages proactive equipment care to optimize the efficiency of branch equipment, maintain standards and enhance the end-customer experience.

OnDemandSM

The OnDemandSM service solution allows customers to access industry-leading service at discounted time and material rates.

Specialized Service Programs

Alarm Management Program

Remote assistance for alarm panel management including programming and adjustments.

Alarm Monitoring Program

Monitoring service via central station for 24/7 coverage: UL certified for Burglar Alarm Systems and Protective Signaling Services.

Decommissioning Program

Complete project management for branch closings including site surveys, safe deposit drillings and equipment removal/disposal/relocation.

DVR Loaner Program

Loaner program to ensure uninterrupted video surveillance while your equipment is under repair.

Escheatment Program

Aggregated safe deposit box management to adhere with your required timelines and budget.

Equipment Leasing Program

Annual leasing or lease-to-buy for branch networks.

Key Management Program

Gated access to copies of night deposit and guard keys.

Lock Services Program

Routine repairs and locksmith services performed on-site. Specialized or obsolete lockwork attended to at our central lock shop with Master Locksmith oversight.

Managed Services Program

Transitional equipment management including upfront appraisals and assistance with equipment recycling, storage and even centralized warehousing.

BranchServ Helps You Put Your Best Branch Forward.

BranchServ provides a full suite of branch security service and equipment solutions. We have complemented that with our automation portfolio to leverage industry trends and provide a complete solution for financial institutions nationwide. All work together to ensure optimal results for our customers.

Our unique approach to branch design allows us to improve operational efficiency, lower overall equipment costs and enhance the end customer's experience—all while maintaining industry and client standards. Ultimately, we are committed to serving you.

“BranchServ was built on security and service, and these continue to be cornerstones of our success. Our automation portfolio is an excellent complement to that offering for customers who are increasingly focused on enhancing operational efficiencies and improving consumer connections.”

-David Pepin, Chief Operating Officer
